JOB TITLE:	GCSS-Army Software Tester (PBUSE)	JOB LOCATION:	Midlothian, VA

POSITION REQUIREMENTS:

- 20 plus years experience in Military Logistics
- Unit/Battalion/Brigade Supply Operations/Property Accountability
- Experienced on numerous logistics automated systems (SPBS-R, ULLS-S4, PBUSE)
- Division Property Book Experience
- Software testing/BCCB operations
- Knowledge of SAP (desired but not required)
- Fielding and Training Army Systems (desired but not required)
- Knowledge in the use of Microsoft Word, PowerPoint, and Excel programs
- SECRET CLEARANCE

POSITION RESPONSIBILITIES:

- Support testing of the Tactical Enterprise Resource Planning (ERP) implementation of the Global Combat Support System-Army (GCSS-Army) Field Tactical (F/T) in the property accountability area.
- Liaison between the GCSS-Army (F/T) system and the Product Life Management – Plus (PLM +) system
- Provide Army Property Book Subject Matter Expert advice on Army Transformation, functionality, policy, and procedures to SAP trained consultants.
- Provide information on the Army's automation architecture and how it fits into the overall scheme of a Single Army Logistics Enterprise (SALE).
- Review regulatory and other directives having logistics systems applications for consistency with Army logistics doctrine and determine the impact on GCSS-Army.
- Analyze policy, procedures, and automated management information systems emphasizing Army's Maneuver Sustainment activities in the tactical and operational levels of the Current and Future Force logistics continuum.
- Assist in the development of management policies.
- Perform Software testing
